BeautiCal®

The new generation for the pot and patio! 'BeautiCal®' has a mounded plant habit that is ideal for baskets and patio containers. Popular for its unique colours and abundant flowering, BeautiCal® is an ideal combination of Petunia and Calibrachoa traits. Grower, retail and consumer friendly, it produces a mass of colour all summer long, and is also low-maintenance and very rain resistant.

- ✿ Intergeneric hybrid with compact-medium mounding habit
- ✿ Very good weather tolerance, rain or shine
- ✿ Large showy flowers till end of the Summer
- ✿ Mildew resistance: long lasting plant till end of Summer
- ✿ Suitable for cultivation in 10.5-12 cm pots and containers
- ✿ Highly suitable for patio, terrace, balcony and garden beds
